MUHAMMAD IKHWAN ARIFF BIN SHAHRUL NIZAM

Computer Science Undergraduate | Full-Stack Web Developer

Kajang, Selangor, Malaysia | +60 18-257 5321 | ikhwanariff255@gmail.com | ikhwanariff.site

linkedin.com/in/ikhwan-ariff-31864a323 | Internship Availability: March – June 2027 (3 months)

PROFESSIONAL SUMMARY

Computer Science (Hons) undergraduate at Universiti Teknologi MARA (UiTM), CGPA 3.52/4.00. Built DefexSnap, a Laravel inspection platform that automated a property inspection startup's reporting and tripled its monthly output (8–12 to 30+ reports), and completed an IT internship at the Public Sector Home Financing Board (LPPSA). Seeking a 3-month internship (March – June 2027) in software engineering, web development or IT operations.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Java, C++, SQL, HTML, CSS

Frameworks & Tools: Laravel, Filament v3, Livewire, Alpine.js, Tailwind CSS, Java Servlets, JSP, JDBC, Git

Database & Infrastructure: MySQL, Oracle Database, Linux VPS administration, Nginx, SSL/TLS (Certbot), AWS EC2, system deployment

IoT & Emerging Tech: ESP32 firmware, MQTT, Flask, IoT integrations

Practices: MVC architecture, DAO pattern, Object-Oriented Programming, User Acceptance Testing (UAT), technical support and troubleshooting, Data Structures

EXPERIENCE

Freelance Web Developer – Defect Guru (Miyya Inspection), Kajang, Selangor (Hybrid) **Feb 2026 – Present**

- Build and maintain the company's official website as its main technical contact, handling updates, troubleshooting and fixes.
- Manage hosting on a Linux VPS, including Nginx configuration, SSL/TLS security (Certbot) and custom domain routing.

Information Technology Intern – Public Sector Home Financing Board (LPPSA), Putrajaya **Oct 2024 – Feb 2025**

- Contributed to system enhancements using the Laravel framework within the organisation's web applications.
- Took part in User Acceptance Testing (UAT) sessions to validate new system modules against user requirements.
- Assisted the core development team with troubleshooting and resolving technical tasks, improving system reliability.

PROJECTS

DefexSnap – Property Inspection Platform **Freelance Project, 2026**

Lead Developer | Laravel, PHP, MySQL, Tailwind CSS, Alpine.js, Nginx, Linux VPS

- Proposed and built from scratch an automated inspection reporting platform, replacing the manual process of a one-person inspection startup.
- Tripled monthly output from 8–12 to 30+ inspection reports, allowing the owner to take on more projects and increase revenue.
- Built a dynamic PDF engine that auto-generates inspection reports and invoices, removing manual errors from field-to-office workflows.
- Deployed and maintained in production for two clients: Defect Guru (6 months, ongoing) and Benamora Sdn Bhd (5 months).

IoT & AI-Powered Tilapia Aquaculture Monitoring System **Final Year Project, 2026**

Lead Full-Stack & IoT Developer | Laravel, Filament v3, Livewire, MySQL, AWS EC2, Nginx, ESP32 (C/C++), MQTT

- Built and deployed an end-to-end platform that monitors real-time water quality (temperature, pH, turbidity) for Red Hybrid Tilapia aquaculture.
- Developed an admin dashboard with multi-interval charts (5 minutes to 30 days), a real-time pond health score (0–100%) and an automated risk module that suggests mitigation steps.

Java EE E-Commerce & Shop Management Platform **Academic Project**

Java, Java Servlets, JSP, JDBC, Oracle Database | MVC, DAO pattern

- Built a full-stack MVC web app: Servlets for routing and business logic, JSP for dynamic views, and a DAO data layer over Oracle Database via JDBC.
- Developed modules for catalogue and inventory (product variants, image upload), staff and role management, and sales and customer analytics dashboards.

EDUCATION

Universiti Teknologi MARA (UiTM) – Bachelor of Computer Science (Hons) **Mar 2025 – Oct 2027 (Expected)**

- **CGPA:** 3.52/4.00. **Coursework:** Software Engineering, Enterprise Programming, Database Engineering, AI Algorithms, Algorithm Analysis and Design, Computer Security

Universiti Teknologi MARA (UiTM) – Diploma in Computer Science (CGPA: 3.43/4.00) **Oct 2022 – Mar 2025**

CERTIFICATIONS

Career Essentials in Software Development & Generative AI – Microsoft & LinkedIn **Oct 2026**
